RE: Security Audit - Consulting and Advisory Services**

Greetings and good day to you.

Thank you for your interest in Imaxsolutions Security Consulting Services.

Imaxsolutions provides niche services with regards security preparedness protecting business organizations from internal and external threat in Malaysia and abroad.

As many global organizations facing business threat from various crisis due internal and external situations, it is evident that security auditing is very pivotal towards business survival during this challenging period.

Security Audit is a specialized exercise by professionals to ascertain and establish all grey areas and detailed analysis of security threat faced by any business organization from various angle.

As a result of this exercise, companies can manage their threat in better perspectives for their survival and business continuity. Kindly take note that Imaxsolutions has done large number of security audits in various parts of Malaysia. We believe these services will be of much assistance in your future undertakings.

Kindly reach the undersigned should you need further clarification. We would like to suggest a private meeting with your good self towards moving forward.

Thanking you in advance.

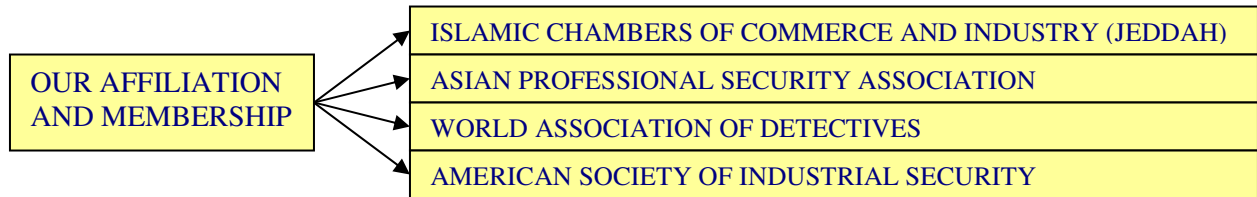

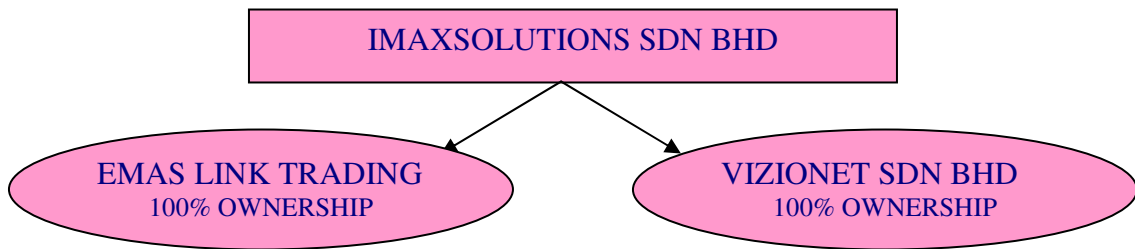

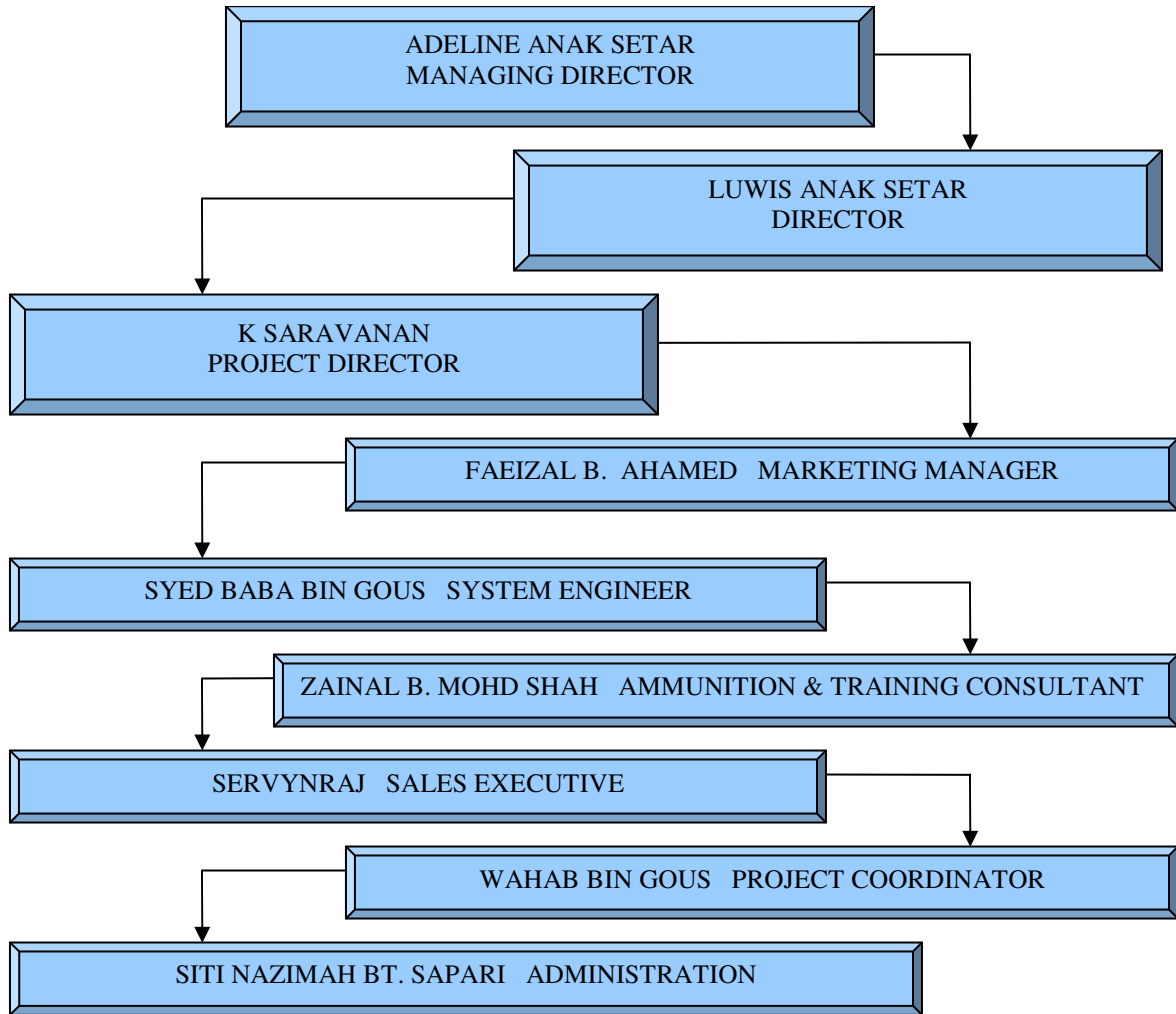

Yours truly,

K Saravanan

ORGANIZATION CHART

IMAXSOLUTIONS SECURITY CONSULTANCY

In today's ever increasing crime rate within the public and private sectors, large and small businesses are discovering the necessity to protect their staff and investments with security devices. The security industry is largely being considered as the backbone that will ensure continual survival of corporate entities. Together with the expansion various security devices like the *CCTV Systems, Access Control Systems, Alarm & Automation Systems* and *High Security Fencing Systems* are expanding at a rapid rate. These security installations may ultimately be the deciding factor of 'business survival' for many people.

Each security system should be designed to cater for the specific needs of the client. It is important to be able to design an up-to-date security system. This system should offer your plan every possible advantage and provide effective security management. We at *Imaxsolutions* are able to provide our clients with the best security solutions to reduce security risks, which they might face on a day-to-day basis.

The product that we market is the company's lifeline. R & D has always been a focus at *Imaxsolutions* in order to create market niches to consolidate our leading position in the industry. This has placed *Imaxsolutions* in a position where it has been able to obtain the confidence of many leading corporations who have become our steady clients.

Imaxsolutions places very high professional demands on its products. We emphasize quality and efficiency and seek long-term operation for the growth of corporation. The goals of the company are to create high added value products to lead the international market and to expand opportunities.

Imaxsolutions with the positive action and team spirit is meeting the challenge of keen competition head on. We are devoted to the industry to provide the best service to the customers, in hope of seeking better growth through strong development, manufacturing and marketing abilities and after sales service.

IMAXSOLUTIONS – VISION IN MALAYSIA

Imaxsolutions aims to do the leading consultancy firm in the electronic security industry with specific emphasis on:

- ↗ ***CCTV Systems***
- ↗ ***Access Control Systems***
- ↗ ***Alarm and Automation Systems***
- ↗ ***High Security Fencing Systems***
- ↗ ***Data Communications technologies***
- ↗ ***Data Center Infrastructure***
- ↗ ***Data Security***
- ↗ ***IT Consultation***
- ↗ ***It Outsourcing***
- ↗ ***Voice Communications Technologies***
- ↗ ***Environment Monitoring System***
- ↗ ***Surveillance System***

Imaxsolutions has, time and again, proved its capacity by successfully undertaking and completing various projects around the country. Some of the projects are *PLUS (Projek Lebuhraya Utara Selatan)*, *Klang Multiterminal (WEST PORT)*, *Tenaga Nasional Berhad (TNB)*, *Wisma DRB-HICOM*, *PJ Hilton* and many alike. In addition to specializing in *CCTV Systems*, *Access Control Systems*, *Alarm & Automation Systems* and *High Security Fencing Systems*, maintenance services provided by *Imaxsolutions* are a feather in its cap.

Our teams of professional security consultants have sound knowledge and are capable of providing pragmatic and precise advice and approach to a problem.

Imaxsolutions also houses a team of highly skilled and experienced workers who are trained to work under extreme pressure and provide on-the-ground assistance and advise whenever the need arises.

In *Imaxsolutions*, we understand the specific needs of our clients, work to provide assistance and consultancy within a reasonable financial budget and meet the requirements within the stipulated time frame.

IMAXSOLUTIONS – OUR FOCUS

Imaxsolutions provide security consultancy and solutions to corporate entities concerned about protecting themselves from the high security risks. Recognized as an objective force in the security consultancy field, *Imaxsolutions* is a leading security consultancy firm, which acts as an organized shield against security threats and other vulnerabilities.

Combined with experienced security analysts and our association with several closed-door security organizations lend us an edge by allowing us an over-the-horizon view into the potential risks companies need to combat. This also puts in a better position to consolidate our expertise and provide the best security advice to tackle any given situation.

We, at *Imaxsolutions* are dedicated to helping our clients mitigate their security risks by providing the most focused security consultancy available in the industry. Along with our business associates, team of security experts and sound knowledge, we are confident of helping you create and maintain a safe foundation for your business.

Our focused knowledge base combined with the analysis of some of the best minds in the consultancy field gives us an advantage in providing unparalleled security advice to meet even the most challenging of situation.

IMAX – INDUSTRY EXPERTISE

Imaxsolutions is focused in providing the most sound security consultancy to its clients. Our expertise is structured and geared towards meeting the specialized needs of the major industries in Malaysia:

- ***Manufacturing***
- ***Construction***
- ***Infrastructure Projects***
- ***Housing***
- ***High Security Installations (Military sites)***

Apart from consultancy, IMAX has also created a niche for itself in the installation and maintenance of *CCTV Systems, Access Control Systems, Alarm & Automation Systems* and *High Security Fencing Systems*. The services rendered by IMAX are confined to the legal legislation and boundaries drawn up by the Malaysian government.

Imaxsolutions enables its clients to protect themselves from hostile and complex business risks. We regularly assist decision makers, strategic planners and human resources personnel to minimize and even eradicate the potential hazards existing in any given business environment.

Our strategies are carefully planned and executed to provide the best results for our clients. Solid backing from our security experts who have work with companies both locally and globally coupled with a team of reliable assistants give us the much-needed advantage to provide our customers with credible, pragmatic and prudent advice.

At IMAX, we are continuously upgrading ourselves with the latest development in the security Industry to improve the quality of our service to our clientele. IMAX is set to take the lead in the security industry and create a niche for itself in the field of consultancy.
